## DALY-WEST'S DIVIDEND RATE

Bamberger Does Not Know What Directors Will Do.

NO DEAL PENDING FOR MINE

HOLD-UNCLE SAM DOINGS.

Instead of going through to New York direct, General Manager Jacob E. Bam-berger of the Daly-West came down from

### DALY-WEST'S NEW PLANT. Its Cost Will Be Recovered From Old

in the new plant is a five-foot Hunting-ton mill for grinding the coarser tailings, seven slime settling and classifying tanks, two two-compartment jigs for treating coarser tailings, six concentrat-ing tables and one Wilfley slimer.

The new plant's first work will be upon the large tailings dump, which it will, handle at a cost of not more than 15 cents per ton, with a profit of from 30 to 50 cents per ton. In handling the ores of the mill the old concentrator effected a saving of 72.3 per cent. These figures with the aid of the new plant will be raised to from 85 to 90 per cent, so that in less than a year's time the tailings mill is expected to more than pay for itself.

### RECEIVERS IN CHARGE. Hartford Shareholders Say Deal With Monarch Will Go.

Monarch Will Go.

A dispatch from Milford, Beaver county, brings the information that all the properties of the Majestic Copper Minding & Smelting company, including the offices, are now in possession of the receivers. What the next move will be remains to be seen, but a dispatch from Hartford during the day indicates that the shareholders there are not worrying much over the appointment of receivers. They don't believe the receivership will interfere with negotiations in progress for the sale of the concern to the Monarch. According to the invoice made, the property is marked up to the new company at about \$2,000,000.

Regarding the application of several

at about \$2,00,000.

Regarding the application of several creditors of the company to have it declared an involuntary bankrupt, the assertion was made yesterday that the moment the new company showed that it was ready to do business and that claims against the old Majestic company would be settled, the bankruptcy proceedings would be quashed. In other words the action was a precautionary one, and not intended at all to defeat the wish of the majority of shareholders to turn the property over to the Monarch.

### OIL LANDS TIED UP.

One Man Is Now in Possession of 40,800 Acres Along the Lake.

40,800 Acres Along the Lake.

Through deals, the last of which was closed up yesterday afternoon, Ben T. Lloyd, who very recently disposed of a large block of ground in the vicinity of the Guffey-Galey oil well at Farmington, became trustee for the owners of 40,800 acres more. The property reaches from a point a little north and west of the Hot Springs lake northerly for a distance of about seventeen miles. It embraces practically all of the territory lying between these northerly and southerly limits and the Antelope island in the lake to the west.

Skirting these possessions on the east are properties of the Farmington Consolidated, King-Standard, Lake Shore. Union Pipe Line, the ground turned over to Pittsburg operators by Mr. Lloyd, the Guffey-Galey tract, and one or two small dabs owned by individuals.

completion of the Tonopah railroad is beginning to gather strength.

Good Friday being a holiday in New york and Boston financial circles, no define as several years. Yesday four carloads of first class ore re on the market, while two cars of incentrates were sent out during the ck. He says the mill is handling from by to sixty tons of crude ore daily d making from eight to ten tons of incentrates which run about 40 per cent d, 22 ounces silver and from \$3\$ to \$4\$ gold per ton. Not much talk is being de regarding the Uncle Sam, but it evidently making an enviable record see days.

Completion of the Tonopah railroad is beginning to gather strength.

Good Friday being a holiday in New York and Boston financial circles, no quotations were made vesterday in the metal and stock markets.

General Manager MacVichie of the Bingham Consolidated is expected to reach home on Thesday, unless he decides to remain over a day or two in Denver.

A machinist was dispatched to the Midas company's reconstructed mill at Clifton, in the Deep Creek country yesterday. It is expected the plant will be in readiness to run by the lith, or very soon thereafter.

G. D. B. Turner, manager of the West Quincy, returned from California Thurs-

MONTANA-TONOPAH OPERATION MAJESTIC RECEIVERS TAKE Mine Opening Up in Splendid Style-New Hoist Delayed.

rintendent Badgett makes the fol-report for the past week of con-at the Montana-Tonopah com-All parts of the mine are looking firste. We have made the connection in
winze between the 500 and 500
els and have started to take out ore
the 600. The winze is down twenty
at below the 600 and is producing some
ry fine ore. The west drift on the
accountal ledge on this level is lookig fine. The east drift is not looking

# HURTS TRADE

Business Backward in the North, East and West.

SOME REDEEMING FEATURES

EXPORTS OF COPPER THE LARG-EST EVER RECORDED.

New York, April 1.-Bradstreet's tomor-

trade, delayed collections, discouraged Easter demand and closed a three-month period of rather backward business in the north, east and west. There are some redeeming features, however. Agricultural implement men have done probably the best season's trade on record, the railways are gradually winning out of their transportation difficulties, the western clothing and shoe trades have done very well and the feeling in the iron and steel trade is a more cheerful one than seemed possible a short time ago. While nearly all signs point to a smaller turnover in the country's trade than in 1903, feeling is still general that the crop outlook, stimulated by high prices, favors large yields, and warm, dry weather is eagerly awaited as furnishing a true test of the real trade situation. Among other metals copper is notably strong and exports in March are reported next to the largest ever recorded. The great mass of commodities show continued and notable strength.

Wheat, including flour, exports for the week ending March 31, aggregate 1,257,430 bushels, against 1,321,845 last week, 3,130-974 this week last year, 4,446,917 in 1902 and 4,698,693 in 1901.

Business fallures in the United States for the week ending March 21 number 212, against 215 last week, 145 in the like week in 1902, 176 in 1902, 188 in 1901 and 182 in 1900.

In Canada failures for the last week of March number 11, as against 18 last week and 18 in this week a year ago.

W. A. DUVALL,

Makes the Hair Grow

Munyon's Witch Hazel Soap is truly a blessing to those who are losing their hair and becoming bald. This soap is a food and vitalizer; it stimulates and acts as a and vitalizer; it stimulates and acts as a gentle tonic to the weak and sick roots, and gives them new life and vigor. It promptly removes dandruff, scales, humors and all sores of the scalp. Give this scap a fair trial, and if there is a particle of life in the roots, this scap will stimulate and invigorate them into a healthy growth. Of course, you know that Munyon's Witch Hazel, Scap for the complexion and for the toilet is superior to any high-priced French scap made. It makes the skin soft as velvet and keeps one free from pimples, blotches and most skin eruptions.

President, W. S. RAVENSCROFT, Pittsburg, Pa. Vice-President, J. W. BOILEAU, Pittsburg, Pa. Secretary and Treasurer, T. J. ALMY, Salt Lake City.

This is a fac-simile of certificate held in this company by Mr. A. J. Wallace of Butler, Pa. Mr. Wallace has for over twenty-five years been prominently identified with the development of the eastern oil fields. He personally inspected this territory before interesting himself and will have personal charge of

This company has leases on approximately six thousand acres of land near Farmington and west of Salt Lake City. Some of this land was formerly developed to a partial extent and results as given in report of Mr. John Wolfe, the widely known gas expert of Findlay, Ohio, prove it to be a territory worthy of extensive exploration. MR. WOLFE SAID: "I DO NOT KNOW OF ANOTHER GAS FIELD THAT SHOWS SO STRONG OR HAS BETTER INDICATIONS OF PERMANENCY, OR ONE SO LARGE AS THIS

SHOWS SO STRONG OR HAS BETTER INDICATIONS OF PERMANENCY, OR ONE SO LARGE AS THIS FIELD FROM THE SAME AMOUNT OF DEVELOPMENT."

In addition to its valuable land this company has secured a right of way for a pipe line from the old gas field to the works of the Utah Light & Railway Co., of this city, with which company it has a five year contract for its product. Among the stockholders and directors of this company are W. S. Ravinscroft, who is extensively interested in the oil and gas fields and the manufacturing interests of Pennsylvania; M. S. Cline, president of the Elk National bank, Pennsylvania; J. W. Boileau, who is identified with the oil gas and coal fields of Pennsylvania and Ohio; Dwight M. Lowrey of the noted law firm of Harriety & Lowrey, Philadelphia; A. J. Wallace, oil operator of Butler, Pennsylvania; E. A. Halsey, capitalist, Chicago, and W. C. Bigger, secretary and attorney for the Welch Oil company of Ohio. Most of these men have personally inspected this field. Our services in connection with the organization of this company enabled us to secure a portion of the treasury stock for market, which we now offer at FIFTY CENTS PER SHARE. If you expect to participate in the profits that are sure to follow the development of this field you should send your subscription now. Active operations will begin within a few days.
